### **POLI'S**

For the last half of the week Manager Poli has arranged a program that should prove to be one of the most entertaining seen at Poli's theatre in some time. There are many popular favorites in the program and they are sure of a warm welcome.

Josie Flynn's Minstrel Misses, that favorite "girl" novelty, will top the bill with their happy repertoire of songs, dances and comedy, all arranged in a delightful minstrel setting. Another big laughing feature will turkey this year, because the average

Francis and Ross, in a clever arrangement of songs and dances, will offering, and Gordon and Day, in their comedy bicycle novelty, will complete the bill.

In the photoplay program, the feature attraction will be the five-part ing them is whether four of twelve society drama, "The Sins of Her cylinders are best suited for country Parent." Miss Gladys Brockwell and a stellar company will be seen in this film play. Another attraction will be Pathe's Pictorial News with its review of world events.

## AUTO LEGISLATION COMING.

It isn't going to be enough to say that something must be done about the streets and the automobiles. The thing is to do it. The Legislature is coming in in January and the city government meets often. City ordinances and statute laws are needed. Here in Hartford we ought to forbid speed in the city streets. The

race track on Farmington avenue should be done away with. The rush cityward in the morning and early afternoon and the rush away from the city at noon and early evening is the source of a vast amount of danger. There are narrow escapes every day.

Out in the open with a clear road the driver takes his own risk, and, if he smashes up, it is on him. In the city the risk is on the outsider. Any careless driver, licensed or lawless, can dash past a trolley car and kill somebody whose life is worth far more to the community than his is. Caution must be the prime consideration. Pe- and enjoy the nicest, gentlest liver destrians are inconceivably careless. "Our war correspondents go into the field of danger without the wild enthusiasm and the all-important touch of elbow which stimulates the fighting soldiers," said Manager Melville E. Stone of the Associated Press in a recent address. "Yet their devotion to duty is none the less certain and controlling.
